The Wine Cellar

Bodegas Resalte de Peñafiel was founded in the year 2000 in order to become a high quality wines producer. It is located in Peñafiel (Valladolid) at the heart of the Ribera del Duero.

Since it is a completely new wine cellar, it is equipped with the best technological solutions and the most advanced machinery, while keeping our traditional methods of winemaking.

We have the best premises to elaborate high quality wines: in our wine cellar the production, ageing and bottling processes are clearly separated.

The Vineyards

Our winery thoroughly monitors 80 hectares of vineyards where we are growing Tempranillo grapes, the regional variety.

The grapes come from selected vineyards at different points along the Ribera del Duero which provide our wines with very complex primary aromas.

The Winemaking Process

Throughout the winemaking process, both the transport of the grapes and the movement of the must are done by gravity, which guarantees the best possible handling.

The most modern technology is combined with traditional methods such as vertical grape presses, to make high quality wines.
